

Lead Screen

Who took this survey: _____Mother _____Father _____Both Parents _____Patient

		Yes	No
1.	Does your child live in or regularly visit a house that was built before 1978? (Includes daycare, preschool, the home of a babysitter, relative, recent move, etc.)		
2.	Does your child have a history of an elevated blood lead level?		
3.	Does your child have a brother or sister, housemate, or playmate being followed or treated for lead poisoning?		
4.	Does your child frequently come in contact with an adult whose job or hobby involves exposure to lead? (e.g. construction, welding, automotive repair shop, stained glassmaking, using lead solder, artist paints or ceramic glazes?)		
5.	Has your child been exposed to imported spices, foods, vitamins or ethnic cosmetics?		
6.	Has your child been given any home remedies? Home remedies containing lead include (but are not limited to) Azaron (also known as rueda, coral, María Luisa Alarcón, liga); albayalde; greta; pay-loo-ah; ghasard; bala goli; kanju; kohl; bebetina; chyawan prash.
